INTRODUCTION

A BRAND IS THE SUM TOTAL OF EVERYTHING THAT IS KNOWN, THOUGHT, FELT OR PERCEIVED ABOUT A COMPANY, PRODUCT OR SERVICE.

IT IS A PROMISE TO ACHIEVE A CERTAIN RESULT, DELIVER A CERTAIN EXPERIENCE AND BEHAVE IN A CERTAIN MANNER.

PACKA-CHING IS A BRAND DESIGNED TO REPRESENT A RECYCLING MOVEMENT AND A NEW WAY OF DOING THINGS.

IN ORDER TO DO THE BRAND JUSTICE AND TO CONNECT WITH AS MANY PEOPLE AS POSSIBLE, WE HAVE CREATED SOME STRICT APPLICATION RULES AND GENERAL BRAND GUIDELINES TO FOLLOW.

1.1

MANIFESTO

**EVERY MOMENT AND BUSINESS
DECISION WE MAKE IS IN THE PURSUIT
OF ONE COMMON GOAL:**

A CLEANER TOMORROW.

**LIKE ANY REVOLUTION, CHANGE
STARTS WITH A SPARK AND SPREADS
LIKE A RIPPLE, ONE THAT SEEPS INTO
THE VIBRANT COMMUNITIES OF SOUTH
AFRICA, RISING ITS PEOPLE UP.**

**A POWERFUL MOVEMENT WHICH SEEKS
THE BETTERMENT OF ALL.**

**THIS REVOLUTION IS CALLED PACKA-
CHING. IT STRIVES TO CREATE A SENSE
OF ECONOMIC EMPOWERMENT AND
PERSONAL PURPOSE FAR BEYOND THAT
PURELY OF MONEY. IT GRANTS THE
POWER OF CHOICE AND FREEDOM,
PEACE OF MIND AND A COUNTRY WE
ARE PROUD TO CALL HOME.**

BRAND SYSTEM

A BRAND SYSTEM IS A COLLECTION OF ELEMENTS THAT WORK TOGETHER TO CREATE THE UNIFIED, CONSISTENT AND FLEXIBLE PACKAGING VISUAL LANGUAGE.

ALL OUR CUSTOMER TOUCHPOINTS NEED TO TIE BACK TO IT – THE SAME LOGO, FONTS, LOOK AND FEEL ACROSS EVERY ASPECT OF THE BRAND.

WE HAMMER HOME THE MESSAGE WHEN IT'S UNIFIED. WITHOUT A CONSISTENT SYSTEM IN PLACE, THE BRAND WILL GET LOST IN THE MYRIAD OF COMMUNICATION TOUCHPOINTS.

2.1

LOGO

Consistency is key when looking to apply the Packa-Ching logo. This brief guide will help you in the general application of the Packa-Ching identity to all forms of communication.

PACKA-CHING®
MAKE SOME KILORANDS

CA 648-446

Circular Lockup

The logomark and wordmark combined create the Packa-Ching logo and should always be used together. The logo forms the most significant feature of the brand system and should be used on all aspects of branded communication.

The Packa-Ching logo should never be altered, tilted, distorted, manipulated or disassembled on any application.

Logomark

The hexagon forms a part of our visual communication and visual language.

Rectangular Lockup

Colour

The colours for our mark need to remain in the placement prescribed above. If the logo is on a black background, all black should change to white. The colours remain the same. Red represents metal, yellow represents plastic, green represents paper and blue represents glass.

2.1.2

LOGO USAGE

The following is the clear zone rule for the circular Packa-Ching logo. In order to gain maximum visibility, the Packa-Ching logo should always appear with a minimum area of clear space around the logo. This area should be free of any type or graphic element. The hexagon shape of the logo is used at x1 to mark the clear space around the entire logo. This rule applies to all versions of the Packa-Ching logo across all mediums.

Example of how the safe zone is measured

Minimum Rectangular Sizes

Avoid using the logo at a size smaller than those specified

Positioning

In all our communications, the circular logo should appear top left, centre, or bottom right. In instances where this is not possible, please see the other places available (half tint).

In all our communications, the rectangular logo should appear top, bottom right or bottom left. In instances where this is not possible, please see the other places it can be used. These examples are in half tint.

Sizes

For all printed communications, please adhere to the specified size guides. For any non-standard formats, refer to the nearest A size guide.

2.1.3

LOGO APPLICATION

Our logo must not be recreated, scanned or keyed into a computer. To ensure consistency, always use the guidelines in the logo application section.

There are four colour versions of the logo. The logo looks best when it is on a black or white background. Observe the rules below on how to use the logo most effectively on coloured and black or white backgrounds.

IMPROPER APPLICATION

To ensure the Packa-Ching logo is not the victim of aesthetic vandalism, the general rule to abide by is: do not change, alter or modify any aspect of the logo.

These are some examples of logo misuse:

2.1.4

LOGO

PAY-OFF LINE

This is your main go-to version of the Packa-Ching logo. The payoff line “Make Some Kilorands” should be used with the logo at all times. An exception to the rule is when the Packa-Ching logo is used on apparel.

***THIS IS OUR MAIN
GO-TO VERSION OF

2.1.5

LOGO

PARTNERSHIPS

When the Packa-Ching logo is an equal partner, the logos should be situated side-by-side with a dividing line equidistant between the two (dictated by x - half the width of the Packa-Ching logomark). The logos should be optically similar in weight and size.

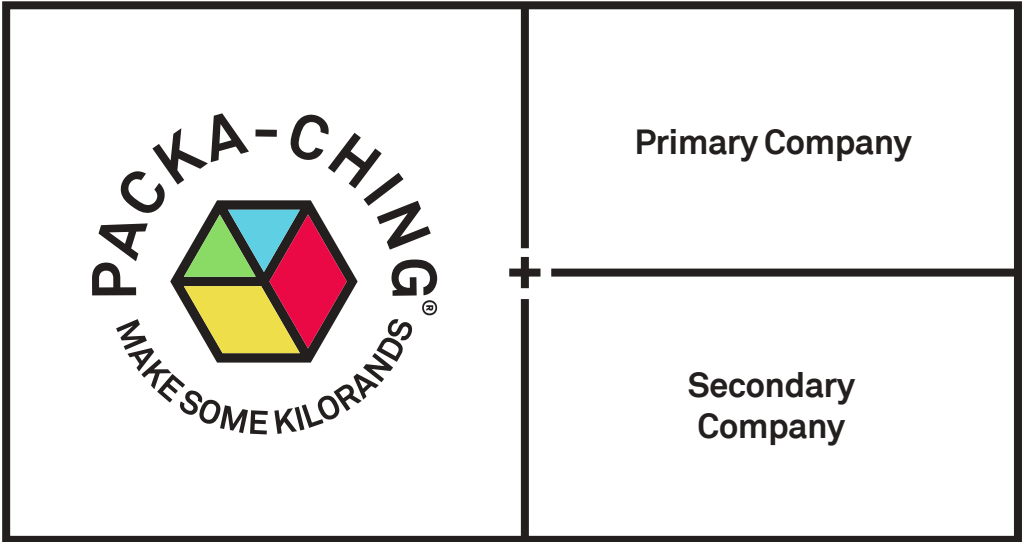

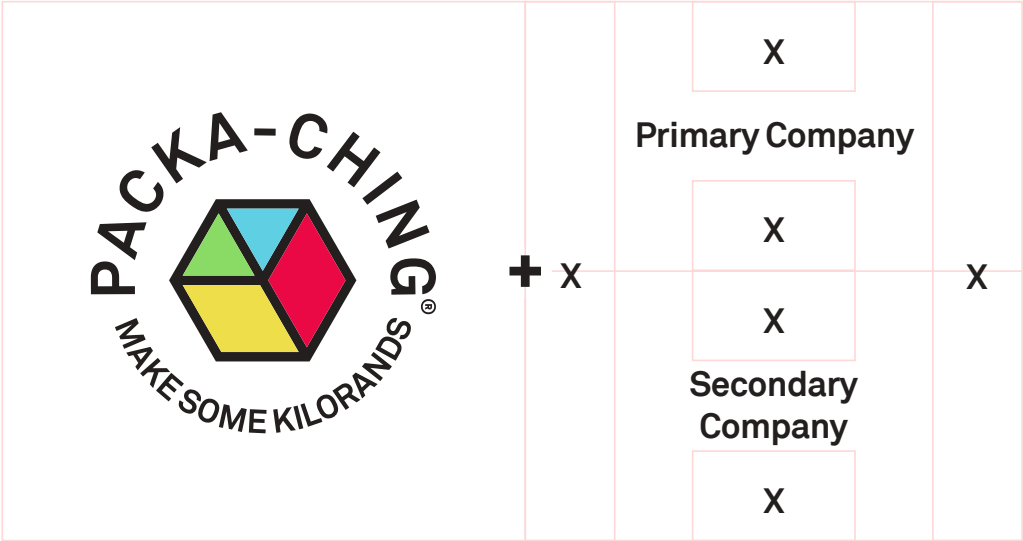

Equal Partnerships Lockup

					
X		X	X	Primary Company	X

When Packa-Ching has a primary and secondary partner, our logo still remains on the left. The primary partner is allowed to have their logo beside the Packa-Ching logo. A secondary partner will be shown below the primary company.

2.2

COLOUR

Colour is highly communicative and plays an important role within our identity.

A range of four curated colours (in addition to black, white and grey) are available. These can be used to communicate in a wide range of tones.

The specified approach to colour is crucial to visual consistency.

2.2.1 COLOUR PALETTE

Yellow, red, green and blue are our core colours. When reproducing our corporate colours, our Pantone values are our main reference: every effort should be made to match the Pantone colours. Due to the differing requirements of printers, we have provided below the conversions for CMYK and RGB. These conversions are for reference only; they may be altered if another conversion can better match our Pantones.

2.2.2

COLOUR APPLICATION

A consistent approach to the application of colour is important for communications to be in line with our confident, clean and simple aesthetic. Below are some examples of colour pairings that work, as well as examples of combinations that do not.

Pairings

Here are some examples of successful two- and three-colour pairings. Simply put, yellow pairs with all colours but all colours do not pair with each other; only with yellow, black or white.

Ratios

There are two main ways to use colour for Packa-Ching. The first one is to place all the bright, core Packa-Ching colours on a black or white background.

The second rule is to use all the core colours as a background. Please follow the pairing rules below: black typography can be used in front of red, but only when it's a headline text that is 18pt +.

Invalid Pairings

Examples of invalid pairings: As a rule, yellow needs to be associated with red, blue and green for maximum visual effect. Illegibility will occur if this rule is not followed.

2.3

TYPOGRAPHY

Typography makes up a large part of our brand system. We are expressive, bold, easy to understand and confident in our application of typography.

Our two typefaces (and an additional web font) and selection of weights allow us to communicate in a wide range of tones.

We also have our “custom” typography, which is inspired by Brandon Grotesque. It was created using rubber handmade stamps and transferred with ink to paper.

HOW TO MAKE GOOD

2.3.1 TYPOGRAPHY

TYPEFACES

Brandon Grotesque and Akkurat are both contemporary sans serif typefaces that allow us to communicate clearly and in a professional manner. Brandon Grotesque works well for headlines on screen and print. Akkurat works well in copy. We use a range of typeface weights. These will be explained in this section.

BRANDON GROTESQUE BLACK

abcdefghijklmnopqrstuvwxyz
ABCDEFGHIJKLMNOPQRSTUVWXYZ
0123456789_!@#\$%^&*()_

Brandon Grotesque should only be used as headlines and predominantly set in uppercase. The only exception we have found so far is in the use of making maps where lowercase was needed and used.

Akkurat (TT) Bold

abcdefghijklmnopqrstuvwxyz ABCDEFGHIJKLMNOPQRSTUVWXYZ
0123456789_!@#\$%^&*()_

Akkurat (TT) Regular

abcdefghijklmnopqrstuvwxyz
ABCDEFGHIJKLMNOPQRSTUVWXYZ
0123456789_!@#\$%^&*()_

Akkurat should only be used in body copy. The exception to Akkurat as a headline is when messaging is set to be strictly formal or is meant for advertising. For example, when copy communicates a message like “Trade Trash for Cash”.

Web Safe Font

Barlow (Semi-Bold)

abcdefghijklmnopqrstuvwxyz
 ABCDEFGHIJKLMNOPQRSTUVWXYZ
 0123456789_!@#\$%^&*()_

Barlow (Regular)

abcdefghijklmnopqrstuvwxyz
 ABCDEFGHIJKLMNOPQRSTUVWXYZ
 0123456789_!@#\$%^&*()_

Barlow is a web-safe font that should be used instead of Akkurat for web-based applications. Barlow has characteristics evoking a combination of Akkurat and Brandon Grotesque. Please use Barlow for all e-mail communications.

Display typefaces are used as a form of visual aesthetic.

HANDMADE CUSTOM TYPEFACE

The Packa-Ching handmade custom typeface was cut out of a rubber sheet and transferred via lino-cut ink to paper and then scanned to be applied digitally. This typeface gets used as the cover display typeface on brochures and other printed material.

2.3.2

TYPOGRAPHY TYPEFACES (DISPLAY)

THE RECYCLABLE TYPEFACE

The Recyclable Typeface is composed of materials you can recycle. The letter “R” and numbers “5”, “1” and “0” were created by photographing individual pieces of recyclable packaging material. These must be used to create denominations of R5, R10 or R15. It is a direct indication that your trash can make you money. The rules for using either R5, R10 or R15 depend on the size of the application. For smaller applications like posters, a R5 or R10 will be used. For a larger application such as a billboard the larger R15 amount is to be used.

TYPESETTING (ADVERTISING)

When we advertise, we need to communicate in a consistent manner. Colours can still be bright to make the application look more approachable and our typeface choice should always be Akkurat Please adhere to the typesetting rules below for best practice.

2.4

ADDITIONAL ASSETS

Packa-Ching sometimes utilises simple icons to communicate as clearly as possible where language barriers may exist. We want to be as inclusive as possible, and therefore the use of icons is necessary to clearly communicate with the greatest number of people.

2.4.1

ADDITIONAL ASSETS PATTERN APPLICATION

Although we do not utilise patterns too often in the Packa-Ching brand communication, they can be used on apparel or in applications where visual impact is critical, social media being one such example.

2.4.2 ADDITIONAL ASSETS

GRAPHIC ELEMENTS

Graphic elements form a large part of our Brand System. They make use of our logo, icons and strokes to create a narrative that is easy to understand for all levels of literacy.

PAPER

GLASS

PLASTIC

CANS

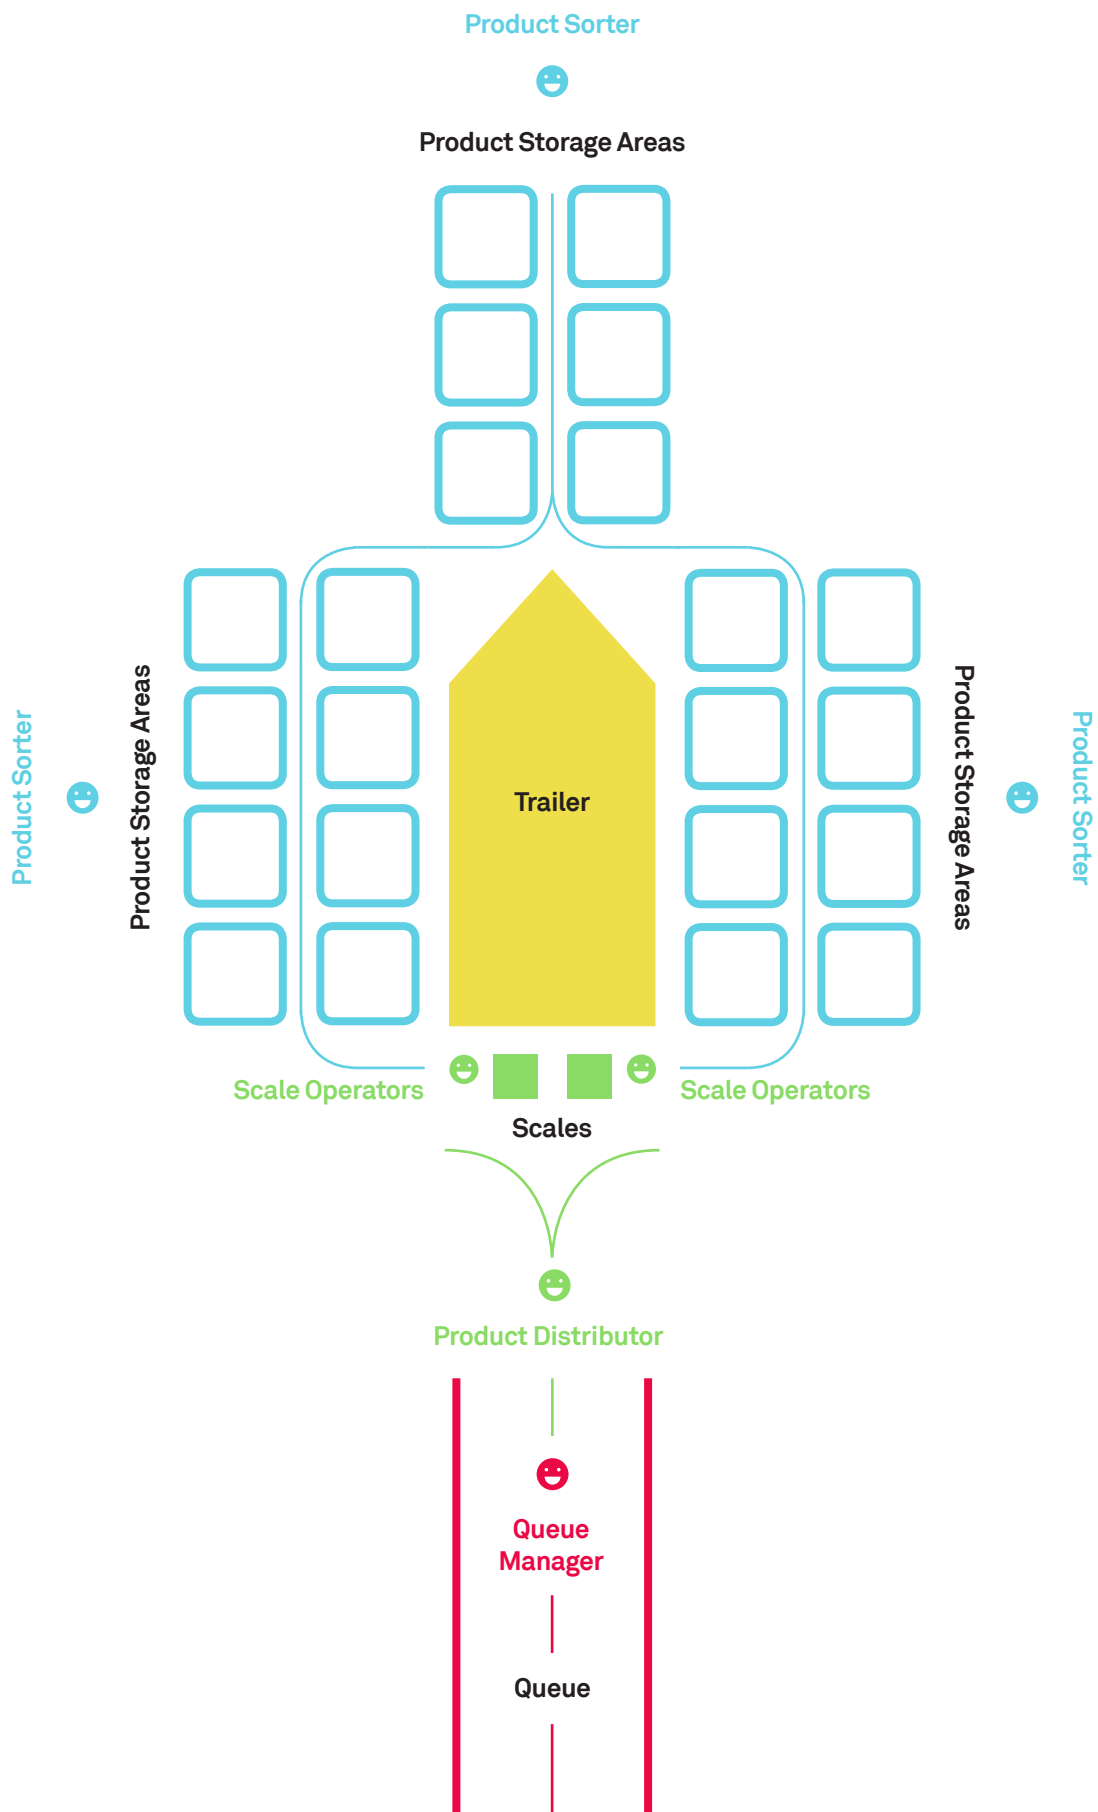

2.4.2

ADDITIONAL ASSETS

GRAPHIC ELEMENTS: MAPS & DIAGRAMS

For maps and diagrams, we make use of our strokes. The general rule for using strokes is that our main stroke size is 3pt. The secondary stroke size is 1pt. We use our brand colours to distinguish certain areas, sections or ideas from others.

2.4.3 ADDITIONAL ASSETS

ICON LIBRARY

Our icon library is an ever-growing part of our Brand System. As we incorporate new icons into it, we will be able to define and compile which are used for various communications.

PHOTOGRAPHY

We have a confident, intriguing and imaginative photographic style. Our photography assets say a lot about our personality and what we are trying to communicate.

The imagery must be real, natural, human, honest, empowering and inspiring.

Depending on the context, our photography style can flex to represent the multifaceted and dynamic nature of Packa-Ching.

The following pages represent the main areas of focus when creating images for the Packa-Ching asset library.

2.5.1 PHOTOGRAPHY PRODUCT

Product photography relates to objects like the Packa-Ching trailer or recyclable items that are brought to the trailer. Product photography can also relate to objects that have the Packa-Ching branding on them. The public can be in the photos but our focus should be more on the branded objects or recyclable material.

2.5.2 PHOTOGRAPHY LOCATION

Location photography is all about being amidst the action. It allows us to show how Packa-Ching interacts with the world and it needs to show upliftment and exemplify the proof of positive change that Packa-Ching has in communities.

2.5.3 PHOTOGRAPHY PORTRAIT

Our portrait photography should have a photo journalistic feel. Written permission should be asked for when taking more close-up, personal photos of subject matters. Let their faces and the environment tell the story. Waste does not always have to be included in the photography.

Photographs taken by: Simon Heger Knuden

2.5.4 PHOTOGRAPHY

PHOTO STORIES

An example of a good photo story is the interesting methods our recyclers have of transporting their trash. These photos can also be used in addition to the portrait photography to create a wider story showing people the effort and resourcefulness of our Packa-Ching users.

2.6

CORPORATE COMMUNICATIONS

Corporate communications are a very important part of the Packa-Ching brand.

This includes all of the printed materials that are required for formal communications, as well as digital collateral, such as presentations.

2.6.1

CORPORATE COMMUNICATIONS

Ikamva Labantu

Wazamo Senior Club

Who is Ikamva Labantu?

Ikamva Labantu is an umbrella Non-Profit Organisation (NPO) that is committed to improving the quality of life of the elderly in Cape Town's Western Suburbs.

Ikamva Labantu works to ensure that the elderly have access to the services and support they need to live independently and comfortably in their own homes through provision of a range of support and resources.

Our core service departments include: Elderly Care, Financial, Legal and Health, Employment and Senior Clubs.

What is Wazamo?

Wazamo is a group of elderly people who share a common interest in the arts and culture. They meet regularly to discuss, plan and execute projects that promote the arts and culture in the community.

The club drives to build and share experiences to create a legacy for the future through painting, pottery, music and writing, mentoring and other activities.

They are assisted with housing, social and other needs.

2.7.3 PRINT APPLICATION FULL-PAGE TEMPLATE

For advertising in publications, we have two separate approaches. One is for speaking to the community and the other is for speaking to potential investors or for PR applications. Our approach is to use our brand colours and apply them to these communications so that they can stand out in printed publications.

Location information relevance

Many business models rely greatly on the location of a client or customer. For example, location-based services like Uber and Deliveroo rely on the location of a customer to provide a service. However, the relevance of location information is not always as straightforward as it seems. In the case of Uber, the location of a customer is not always the best indicator of where they will be when they need a ride. For example, a customer might be at a location that is not a high-traffic area, but they might be at a location that is a high-traffic area at a different time of day. This means that the location of a customer is not always the best indicator of where they will be when they need a ride.

Cultural imperatives

It is important to understand the cultural context of a business. For example, in some cultures, it is not acceptable for a woman to be in a position of authority. This means that a business that is run by a woman might not be successful in those cultures. Similarly, in some cultures, it is not acceptable for a man to be in a position of authority. This means that a business that is run by a man might not be successful in those cultures. Understanding the cultural context of a business is essential for its success.

Vendor dependency

Many businesses are heavily dependent on a single vendor for their raw materials or components. This can be a major risk for the business, as the vendor could go out of business or raise their prices. To mitigate this risk, businesses should diversify their suppliers and build strong relationships with their vendors.

Whether the business is a small startup or a large corporation, understanding these factors is essential for its success.

an experienced delivery driver in New York, instead from a local driver in India. It changes the business model from a local business to a global business. This is because the driver is now able to deliver goods to a much larger area, which increases the potential for higher revenue.

Similarly, local businesses that rely on a single vendor for their raw materials or components will be at a disadvantage if that vendor goes out of business or raises their prices.

Physical delivery

A business whose business model requires physical delivery is not free from geographical dependencies. For example, a business that sells physical goods must have a way to get those goods to its customers. This could be through a physical store, a warehouse, or a delivery service.

Country regulations

Many countries have regulations that affect businesses. For example, some countries have strict regulations regarding the use of data, which could affect a business that relies on data for its operations.

For example, in the US, there are strict regulations regarding the use of data. This means that a business that relies on data for its operations must comply with these regulations. Similarly, in other countries, there are strict regulations regarding the use of data, which could affect a business that relies on data for its operations.

Infrastructure dynamics

A country's infrastructure is a major factor in its economic success. For example, a country with a well-developed infrastructure will be able to attract more investment and create more jobs. Similarly, a country with a poorly developed infrastructure will struggle to attract investment and create jobs.

Understanding these factors is essential for a business to succeed in a global market.

the way a business is delivered. However, the traditional and established way of doing things is still the way that most businesses are run. This means that businesses that want to succeed in a global market must be willing to change the way they do things.

Cost dynamics

Costs are a major factor in a business's success. For example, a business with high costs will have a lower profit margin than a business with low costs. This means that businesses must carefully manage their costs to ensure they are profitable.

For example, a business that has high costs for its raw materials or components will have a higher cost of goods sold than a business that has lower costs for those materials or components.

Understanding these factors is essential for a business to succeed in a global market.

For example, a business that has high costs for its raw materials or components will have a higher cost of goods sold than a business that has lower costs for those materials or components. This means that businesses must carefully manage their costs to ensure they are profitable.

1. R10 SWAP TRASH FOR CASH

Swapping trash for cash is a new business model that is gaining popularity in South Africa. The business involves collecting trash from households and businesses and then selling it to a recycling company. The business is profitable because the recycling company pays more for the trash than it costs to collect it.

2.7.5 PRINT APPLICATION BILLBOARD TEMPLATE

As previously mentioned, because a billboard is a larger application, it is an appropriate space in which to use the R15 made from the recyclable typeface. This typeface is a direct indication of the value of trash.

SCREEN APPLICATION

Our brand identity has been designed to work equally well on screen.

Opportunities exist to create movement and interactivity to further exemplify our values and proposition.

This section will provide guidance on how to represent our Packa-Ching brand on screen.

2.8.1 SCREEN APPLICATION MOTION GRAPHIC

Our motion graphic for our logo is very simple. The colours inside the logo move clockwise from one frame to the next. This motion is simple but effective for animation because the logo structure does not get compromised.

FACEBOOK PROFILE TEMPLATE

Social media platforms allow us a wonderful opportunity to use our graphic elements, icons and patterns boldly and playfully.

2.8.3 SCREEN APPLICATION INSTAGRAM TEMPLATE

We want our social media to stand out and convey the brand personality. This presents us with a wonderful opportunity to employ our graphic elements, icons and patterns. Social media is also a great platform to educate our audience about recycling through either shorter or longer stories.

SCREEN APPLICATION HOMEPAGE DESKTOP & MOBILE DESIGN

The website homepage needs to be simple and clear so that the viewer can understand and navigate our website as effectively as possible.

2.9

ENVIRONMENTAL APPLICATION

Packa-Ching needs to show up consistently in many different environments. Its presence in the field should not only be consistent, eye-catching and confident but also scalable.

2.9.1 ENVIRONMENTAL APPLICATION VEHICLE

The Packa-Ching vehicle can be sprayed to represent any of the core brand colours. It also displays the Packa-Ching logo on the cab doors and the entrepreneur's business name on the body below the cage.

Vehicle Look & Feel

2.9.2 ENVIRONMENTAL APPLICATION

MOBILE UNIT

We have different layout options on our trailers for logo or sponsorship placement, depending on the sponsorship agreement.

Mobile Unit Branding:

When Packa-Ching is displayed with sponsor branding alongside it, we use a black background. Chances are that the sponsors will use a lot of colour in their branding space so the Packa-Ching brand needs to stand out. We leave all the space on the sides of the mobile unit for our sponsor (except for the top bar of the trailer) while the back and front of the trailer have Packa-Ching branding only.

Mobile Unit Branding with Secondary Sponsor:

Front

Side A

Back

Side B

When Packa-Ching has more than one sponsor, the front of the trailer (except for the top bar) will be assigned to the secondary sponsor for advertising space.

2.9.3 ENVIRONMENTAL APPLICATION

WAYFINDING

Wayfinding at Packa-Ching is all about directing people to the collection point. Due to the impermanence of collection points, wayfinding posters on street poles is the recommended solution.

2.9.4 ENVIRONMENTAL APPLICATION BANNER

This is a guideline compilation of the colour backgrounds for our Packa-Ching banners. The Packa-Ching logo can be adjusted to the smaller size when a banner holds a lot of information (examples below).

PRODUCT APPLICATION

Our Packa-Ching brand colours are exceptionally vibrant. This allows us to create apparel that people will want to wear and keep, allowing our brand visibility to become mobile.

2.10.1 **PRODUCT APPLICATION**

STAFF APPAREL

The general rule for apparel is to place our Packa-Ching logo on white shirts and dark outerwear. We want to be able to easily distinguish and protect our staff from the natural elements.

Staff T-Shirts

For outerwear, our approach is to make the item black for maximum sun and weather protection, in which case we use our white-stroke Packa-Ching logo lockup.

PRODUCT APPLICATION

PROMOTIONAL MARKETING GIVEAWAYS

We take advantage of our vibrant Packa-Ching colours, especially on our t-shirts. Apparel is also a great opportunity to make use of our graphic elements. When designing for promotional items, we want our products to look colourful and alluring and so we use our core colours to the maximum effect.

Promotional Giveaways

We have two approaches for product application on bags: one is to use our vibrant logo and apply it as large as possible while observing the rules of our prescribed safe margins; the second approach is to apply our colourful patterns to the bags.
